

FABRIC SOFTENER

Introduction

Fabric Softener is a final rinse additive, this fragranced softening agent is designed to reduce wrinkling and static cling of clothes. **Fabric Softener's** formulation incorporates **Encapsulated Fragrance Technology**. Micro-sized fragrance capsules infuse the fabric during the wash cycle, leaving your clothes smelling fresher for longer. The capsules release bursts of freshness when the fabric moves.

Active ingredients | Surfactants, Perfume

Directions for use

Follow Washing Machine manufacture instructions.

Read Safety **Data Sheet** prior to use.

Always add **Fabric Softener** to the final rinse of a washing cycle.

Dosage

Washing Machine

Pour 100ml into the dispenser of the washing machine

Dosage will vary depending upon local water hardness and size of washing load.
